Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application has been reviewed. Original claims 1-26 are pending. The rejections cited are as stated below:

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-26 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter.

35 USC 101 requires that in order to be patentable the invention must be a "new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof" (emphasis added).

Claims 1-26 are rejected under 35 U.S.C. § 101 because; the claimed invention is directed to a non-statutory subject matter. Specifically the claimed invention as a whole does not accomplish a practical application. That is, it must produce a "useful, concrete and tangible result." See *State Street*, 149 F.3d at 1373, 47 USPQ2d at 1601-02. Accordingly, a complete disclosure should contain some indication of the practical application for the claimed invention. The mere fact that the claim performs the steps of allowing primary bidders to each place a primary bid expressed as a price-per-action that the primary bidder is willing to pay for a particular action for displaying an

associated advertisement within a results page of a search based on a search string; and allowing a secondary bidder to selectively place a secondary bid to augment the primary bid of a primary bidder by a monetary amount does not satisfy the requirement of 35 U.S.C. 101. The claim may be interpreted in an alternative as involving no more than a manipulation of an abstract idea and therefore is non-statutory under 35 U.S.C. § 101. The claimed invention as a whole must produce a "useful, concrete and tangible" result to have a practical application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Cherry et al. (U.S. Pat. Pub. No. 2002/0184093 A1).

Claims 1-26, Cherry discloses a method and corresponding system comprising

the steps of allowing primary bidders to each place a primary bid expressed as a price-per-action that the primary bidder is willing to pay for a particular action for displaying an associated advertisement within a results page of a search based on a search string; and allowing a secondary bidder to selectively place a secondary bid to augment the primary bid of a primary bidder by a monetary amount, allowing more than one secondary bidder to selectively place a secondary bid to augment the primary bid of the primary bidder, and determining an order in which the associated advertisement of each primary bidder is to be displayed on the results page is based on a combination of the primary bidder and each secondary bid associated therewith as claimed in claims 1-26 (fig. 1 and Para [0020 thru 43].
